

Dental Treatment Quote Comparison Worksheet

For patients comparing a home-country dental quotation with a Turkiye treatment estimate

Use this worksheet to compare a treatment quotation from your home-country clinic (e.g. in the US) against a Turkiye clinic estimate, field by field. Fill in the blank column with the details from your own written quotation before making a decision.

Patient name: _____

Date: _____

Treatment Comparison

Quotation Field	US Quotation	Turkiye Estimate
Number of upper teeth	Confirm in quotation	16 teeth
Number of lower teeth	Confirm in quotation	13 teeth
Treatment per tooth	Confirm veneers / crowns	Zirconium Crown (Dr. Abdulrahman)
Material	Confirm brand / type	Premium Zirconium
Diagnostics	Included / excluded	Included
Temporary restorations	Included / excluded	Included
Laboratory fees	Included / excluded	Included
Gum treatment	Included / excluded	Determined after clinical assessment
Root-canal treatment	Included / excluded	Determined after clinical assessment
Follow-up	Confirm local protocol	Included (Custom Night Guard by Dr. Mohammad Attal)
Hotel	Not applicable / local	Included (10 nights standard hotel included; extra nights available)
Transfers	Not applicable / local	Included (VIP airport & clinic transfers included)
Stated total	Varies by clinic / provider	\$6,210.00 (Includes \$4,590 treatment, \$100 night guard, \$995 hotel/extras, & \$525 KDV tax)
Possible additional costs	Confirm exclusions	Excludes unforeseen preparatory procedures or personal room extras
Price-validity date	Confirm with provider	As specified on written treatment plan

How to Use This Worksheet

Dental Treatment Quote Comparison Worksheet

For patients comparing a home-country dental quotation with a Turkiye treatment estimate

- Request a written, itemized quotation from your home-country provider covering each field listed above.
- Fill in the “US Quotation” column directly from that written document — not from a verbal estimate.
- Confirm which items (diagnostics, lab fees, temporaries, follow-up) are bundled into the stated total versus billed separately.
- Ask both providers to confirm the price-validity date, since dental quotes can change after a clinical exam.
- Clarify how gum or root-canal treatment, if needed, would affect the final price at each clinic.

Disclaimer: This worksheet is a personal reference tool to help organize and compare dental treatment quotations. It is not medical, dental, or financial advice. All treatment decisions (including diagnosis, need for gum or root-canal treatment, and final pricing) must be confirmed directly with a licensed dental provider following a clinical assessment. Figures shown for the Turkiye estimate are illustrative and should be verified against the clinic's current written treatment plan.
